KINGSTON, ONTARIO

SEPARATE APPENDIX.*

CONGREGATIONAL STATISTICS.

The Committee on Statistics beg leave respectfully to report :

That the total number of Congregations in connection with the Church on the first day of April, was 115. Of this number 93 had Ministers, while 22 were vacant.†

97 Returns—6 being double, as coming from Congregations, whose Ministers regularly officiate in two Churches, and 12 from vacant Congregations—have been received by the Committee. 16 Kirk Sessions having Ministers, besides 8 vacant Congregations, (some of which, however, ought perhaps rather to be regarded meanwhile, as Preaching Stations than Congregations organised) have not only disobeyed the injunctions of Synod, as given last year, but also the peremptory orders expressed by the Synod of the present year, through the Moderator, to defaulters. These are

Thorah, Mulmur and Scarboro' in the Presbytery of Toronto.

†Quebec, Point Levi, Three Rivers and Leeds, in the Presbytery of Quebec. Grenville, Hawkesbury, Ormstown & Lachine,‡ in the Presbytery of Montreal.

Galt and Brantford in the Presbytery of Hamilton.

London, Woodstock and Norwich, in the Presbytery of London,

with the vacant Congregations of Spencerville, Camd., Whitby, New Richmond, St. Eustache, Vankleek Hill, Beamsville and Puslinch. The return from Richmond (Presbytery of Bathurst) the Committee regret to find has gone amissing.

The greater number of those returns which have been received are more or less incomplete, while many of them are very imperfectly answered.

In connection with those Churches which have reported, there are 7,510 Families, 11,377 Communicants (being a net increase over the former year of 689) with an attendance on Divine Ordinances of 14,914. In 5 returns the number of Families is not given; in 6, the number of Communicants; and in 7, the attendance. The attendance given, it may be remarked, is that of the Morning, which, it appears, is generally considerably larger than that of the Afternoon or Evening. It ought, however, to be noted that the actual attendance is more than this, as the Ministers of the country charges, (and they are by far the more numerous) usually conduct Divine Service, as is well known, in different Churches or Preaching Stations in the after parts of the day to Congregations for the most part different, in very many cases, to Congregations entirely different.

* See minutes of Synod, 1860, page 40.

† There were also 4 Ministers being Professors; 4 retired Ministers; 5 Ministers without charge, and 2 Probationers, making a total of 108 Ministers.

‡ The returns from Quebec and Lachine have since been received. See pp.xv. & xx.

In connection with 89 Churches, there are 426 acting Elders, being nearly five to each Church, a large Staff of Assistants to Ministers in spiritual things, if they endeavour to discharge aright the duties of their honorable office.

There is a Sabbath School in connection with 60 Churches which have reported, shewing an attendance of 4,226, being more than 60 to each school. 48 of these schools are furnished with Libraries, the aggregate number of whose Volumes amounts to 11,249. Besides a Sabbath School, there is a Bible Class in connection with 35 Churches, attended by 818 pupils. There is also a Congregational Library in connection with 35 Churches, comprising 5,401 Volumes. 23 Churches of those reported (having Ministers) have no Sabbath School at present. The great distance of families from Church in many places, coupled with the fact before noticed that many of the Ministers officiate every Sunday in two or more Churches or Preaching Stations, at distances considerably apart, having therefore little time to attend to the teaching of the young on that day, seems to be the chief cause of their not having amongst them this nursery of the future Church. It is pleasing however to find that several Ministers are struggling to overcome the difficulties of their position in this respect as well as in others, and are attempting to maintain Sabbath Schools during the summer months.

During the year upwards of 1,700 little ones have been dedicated in Baptism unto Him who said, "Suffer the little children to come unto me, and forbid them not."

In 19 Churches which have reported to Your Committee, the Sacrament of the Lord's Supper is dispensed once a year; in 54, twice; in 7, three times; and in 1, quarterly; while several do not reply to the query.

In 32 Churches, services on three several week days are connected with the observance of this solemn rite; in 32, there are services on two week days; in 14, there is service on only one. The others do not furnish any information on the point. If practicable, it is certainly desirable to have greater uniformity in the practice of Churches both in regard to the number of times the Lord's Supper is dispensed in the course of each year, and also as to the week days on which Services are held in connection with the administration of this Ordinance.

21 Ministers hold a week day service throughout the year, in most cases an Evening Meeting for prayer, and 8 have a monthly Missionary Meeting, while a considerable number state that they have occasional week day Services.

In reference to Sabbath Observance, the answers received are upon the whole satisfactory, evidencing a becoming respect for the sacred day of rest. Those regarding Family Worship are vague and inexplicit, betraying a marked uncertainty in the minds of Sessions, whether this very essential and incumbent Christian duty is observed or neglected by Families.

The total amount for the year of the ordinary Sabbath Collections of 66 Congregations is \$6,669.03½. One or two of this number state that they have only recently commenced to take up Ordinary Sabbath Collections. 16 others, of which 8 are in the Presbytery of Toronto, either do not reply to the query at all, or say, that they do not make Collections, save for special purposes.

Besides the ordinary Sabbath Collections the sum of \$5,213.46½ has been contributed by 85 Congregations for Missionary and Synodical purposes. The contribution to Synod Fund, being by many Congregations paid out of the ordinary Collections, should not in the case of those who do this, have appeared as a Special Collection or Contribution, as in this way it comes to be reckoned twice; but in most cases, your

Committee had no means of knowing whether a Collection had been made for the purpose, or whether the amount had been taken from the Sessional Funds. In addition to this sum of \$5,213.46½, which is altogether irrespective of the very large contributions of several Congregations of the Church to the General Home Mission Fund, \$3,237.27 have been contributed for "other purposes" or as named in the heading of general and classified sheets No. 2, "Miscellaneous objects," making with ordinary Sabbath Collections \$15,119.77. If to this sum be added the amount of stipend received by Ministers, the total amount raised for all purposes during the year, save those for Church Building and the General Home Mission Fund of the Church (of which the Committee have not been furnished with any correct or full statements) is found to be \$38,926.50, from which, if the Revenue accruing from Property, \$2,788.40 be deducted, there remains \$36,137.10, being pure contributions.

While several Ministers officiate in two Churches, there are, besides, regular Preaching Stations at the following places :

In Presbytery of Bathurst—Bathurst (where there is a Church), Maitland, Clarence, Lochaber, Hopetown, and 10 others, the names of which are not given.

" Kingston—Campbellford, The Plains Belleville, Thurlow, Tyendinaga and 4 others.

" Toronto—Trafalgar, Queensville, Eastville, Bradford, Orono, Springville, Cavan (where there is a Church), and 16 others.

" Quebec—Oakhill.

" Montreal—Point St. Charles (City of Montreal), English River, Sherrington, and 3 others.

" Glengarry—Cambridge, and 14 others.

" Hamilton—Salem, Vittoria, Lynedoch, Wyndham Centre, Flamboro West, and 5 others.

" London—Zorra, and 5 others.

Regarding Missionary Labor, there are openings in the several Presbyteries as follows :

Bathurst—Darling, Lavant, Bromely, &c.

Kingston—Tyendinaga and three other places.

Toronto—Brampton, Osprey, Artemisia, Smith, Garafraxa, Caledon and several others.

Quebec—Brompton, and Durham.

Montreal—St. Joseph Street and Point St. Charles, Montreal, and also Chatham.

Glengarry—Winchester, Roxboro', Cambridge and 1 other.

Hamilton—Puslinch and several others, but names not given.

London—Bayfield, Varna, London Road, Hay and Chatham.

Additional Churches are also said to be required at the following places, in the Presbytery of

Bathurst—Bromely, Grattan, and Wilberforce.

Kingston—Campbellford and two others.

Toronto—Otonabee, Dummer, Orono, Greenwood and 7 others.

Quebec—

Montreal—St. Joseph Street, Montreal.

Glengarry—Morrisburgh, Matilda, and 1 other.

Hamilton—Arthur, Lynedoch, Wyndham and 5 others.

London—Williams.

From the foregoing, it appears that the Ministers from whose Kirk Sessions Returns have been received, officiate, in addition to their

Churches, at 90 Preaching Stations,—that there are openings for Missionary Labor in 28 different places, while in 30, Churches are said to be required, where at present there are none.

The aggregate amount of Church Property returned is,.... \$492703 00
The debt on the same is,..... 76111 55

Leaving unencumbered Property of the value of,..... \$416591 45

In what proportions this debt is distributed among the various Presbyteries will be seen by referring to classified Sheet No. 1, accompanying this Report.

The above mentioned debt is on the Church Property of 35 Congregations and in sums of, from \$16 to \$36,000. Efforts to liquidate it are at present being made by 23 of these.

In connection with 31 Churches which have reported, there are no Manses; in connection with 29, there are no Glebes; while 20 have neither Manses nor Glebes. The returns from five of these state, that efforts are being made to procure the one or the other.

The Committee would respectfully suggest to Synod, that the attention of the Committee on Church Property should be called to the title of the Church of Dundee—to that of St. John's, Hamilton (which is said to be disputed), and also to that of North Dorchester. They would likewise suggest to the attention of the Synod, that in their opinion, Congregations should be furnished annually (as the Laws of the Province relating to Church Property now provide), with a report of the receipt and appropriation of all revenues received by Trustees from all Glebes and other properties belonging to the several Congregations, and which are held in trust by such Trustees or Managers.

In 40 Churches from which Returns have been received, the sittings are let. In a few, the sittings have been sold either absolutely or under certain regulations. In all the other Churches, the sittings while free, are regarded as belonging to those who, for the time being, contribute to the maintenance of Divine Ordinances. The rate of sitting in those Churches, in which the Pews are let, averages from \$0.50 to \$4.00. The average rate of sitting in the Bounds of each Presbytery will be seen by referring to classified Sheet No. 1. That of the whole Church is \$1 64½.

The stipends of 22 Ministers, the Managers of whose Churches have reported, are derived from Pew Rents.

2 chiefly from Pew Rents.

11 from Pew Rents and Subscriptions.

36 from Subscriptions.

1 chiefly from Subscriptions.

3 from Pew Rents and Collections.

1 " Pew Rents and Property.

1 " { Pew Rents, Subscriptions,
and Sabbath Collections.

2 " Subscriptions and Property.

1 " { Subscriptions and taxation
of Property.

1 " { Subscriptions and Grant of
Colonial Committee.

1 " Collections and Grant of Colonial Committee, while the others do not state whence derived.

The stipends of 12 Ministers are paid in advance.

" 7 " partly in advance.

" 1 Minister is paid rarely in advance.

" 2 Ministers are paid from time to time during

the year, while the large number of 52 do not receive stipend, till the end of term or year, even when it is said to be punctually paid. A few do not reply to the query, which leads to the belief that the Ministers of such come under the last classification.

The stipends of 24 Ministers are payable annually.

" 33 " semi-annually.

" 13 " quarterly.

" 1 is intended to be paid quarterly.

1 receives a portion of stipend weekly and the balance when called for. 3 have no regular times of receiving payment, and 9 give no information on the subject.

The Stipends paid to Ministers by their Congregations during the year, irrespective of any allowance which they may have received from the Temporalities Board of the Church,* average from \$43 to \$2000.

The average payment on account of Stipend to

5	Ministers is.....	\$ 59·60
5	do is.....	110·40
6	do is.....	156·16½
9	do is.....	205·89
9	do is.....	250·86
10	do is.....	326·58½
8	do is.....	412·90
5	do is.....	527·80
3	do is.....	800·00
4	do is.....	1450·00

The gross amount of Stipend paid by these 64 Congregations (being all who have reported this item) is \$23,806·73, which gives an average Stipend to each Minister of \$371·98.

The average Contribution of each Communicant in these Congregations (and they embrace 8742 Communicants) for Stipend purposes is \$2·72½, and that of each Family belonging to the same (and there are 10127) is \$2·35.

32 Congregations report arrears amounting in all to \$6850·37. The Congregations in the Presbytery of Hamilton, occupy the unenviable position of being the largest in arrears to their Ministers, these being no less than \$1960·12. The Congregations in the Presbytery of Bathurst come next, owing \$1380·00, those in Glengarry next, owing \$1216·00. The Congregations in the Presbytery of Toronto, in proportion to their numbers, are the least in arrears, the amount of Stipend promised by them being \$6186, and the arrears only \$654.

One Congregation in the Presbytery of Kingston reports arrears to the amount of \$556. The arrears of three Congregations amount to the sum of \$1475·79.

Besides \$6850·37 arrears of 32 Congregations before mentioned, it is evident from tabular sheet No. 2, that the arrears of the past year (irrespective of any of former years) of 6 others, though not stated, are \$430, making a total of \$7280·37, arrears of 38 Congregations; and it is equally evident that if those Managers who have withheld information on this point, had honestly reported, the aggregate amount of arrears would have been even much greater.

The total arrears owing by those 38 Congregations are about one fourth of the amount of Stipends, promised by the whole Church.

The following Congregations have given no information whatever as

* See minutes of Synod, 1860, pages 52-54, from which it appears that 57 ministers received \$450 each, last year from the Temporalities Fund; 10 received \$400 each; and 31 at the rate of \$200 each—all these sums being inclusive of the amount paid by each to the Ministers' Widows' and Orphans' Fund, viz., \$12 dollars per annum.

to Stipend: St. Andrew's Church—Kingston, Chinguacousy, Eldon, Hornby, Chatham (Presbytery of Montreal), Beechridge, and Guelph. The first mentioned of these and also the last, have given no report as to Temporalities.

Though the arrears of the small Stipends of the Ministers of the Church be as before mentioned, and the Temporalities so ill cared for, this does not arise from a deficiency in the number of persons holding the office of Managers, for the Returns received from 82 Congregations give an average of more than 6 to each Church. Indeed it appears, in not a few cases that the larger the body of temporal Managers in a Church, just so much the less are the Temporalities duly cared for. Your Committee being deeply impressed with the importance of this matter, and the urgent necessity of steps being taken to remedy this increasing evil, which is daily enfeebling the energies of Ministers, and exerting a baneful influence upon very many Congregations, would respectfully direct the attention of Synod to the serious consideration of the Temporalities of the Church. Considering the smallness of the Stipends promised, the large arrears owing by many Congregations shew, not so much the material poverty of the people, as the low state of the Christianity of very many of them. If men be not honest, need it be said, they are not Christian? "Will a man rob God? Yet ye have robbed me." (Malachi III. 8). And is it to be reasonably expected that God will bless the labors of his ministering servants to such? It cannot be expected. This state of things, it is possible, may arise in many instances, not from dishonesty or an attempt to defraud God's Ministers of a proportion of the pitiful sum dignified by the name of Stipend, so much as from carelessness and indifference. If so, it is a carelessness and an indifference which are highly culpable. And if the disease that is preying upon the Christianity of many Congregations, and paralyzing the energies of not a few able Ministers, be capable of a cure, it ought surely immediately to be attempted. To quote from the excellent address of our present revered Moderator at the close of Synod:—

"The responsibility of the Synod and Presbyteries is peculiarly great. No delicacy of feeling should hinder them from devising and carrying into prompt operation an economy that would set the minds of Ministers free from the absorbing, racking, cares of life, an economy liberal, yet prudent, that would check avarice, repress selfishness and be a sure token that Christian charity and benevolence (the genuine fruits of Christianity) were prevailing more largely in every congregation. Unless something of this sort be done, you may legislate as you may for the spiritual welfare of the people under your superintendence. You may put forth the most assiduous efforts for the extension of the Church. You may be zealous for the conversion of the heathen to the faith of Christ. But your laws will stand inoperative on your records, evidences of a pretentious zeal and monuments of folly; your College Halls will be deserted; your churches will be empty; your pulpits supplied from the very refuse of corrupted humanity.

"The hardships and privations incident to new settlements have hitherto prevented and will for some time continue to prevent the formation of an efficient ecclesiastical organization. Inability at first becomes indifference in better circumstances, and the Minister, who contentedly toiled with his flock in poverty, is left to toil on without sharing the fruits of their prosperity. Inadequately and irregularly paid, he is too often driven from a field where his affections centred, and they are left without the regular administration of Divine ordinance, or to find a successor whose qualifications seldom rise above the

"miserable pittance they bestow. It is the natural effect of the voluntary system that the ability of the labourer is generally in proportion to the price paid for his work. In a worldly-minded age such as this, and where men are so indifferent to their true interests, that they must be pressed into the Kingdom of Heaven, there can be little expectation that under such a system Religion will flourish, or the knowledge of the Gospel be greatly extended.

"They that serve at the altar shall live by the altar. That they may wholly devote themselves to their work, their maintenance must be adequate, and statedly and regularly paid."

The Committee in conclusion, would respectfully represent that in endeavouring to carry out the views of the Synod, and the very generally expressed views of the Church at large in relation to Congregational Statistics they have used all diligence to obtain the necessary information. Their labors, though onerous, have been cheerfully directed to the end in view, and the only regret felt by the Committee is, that the absence of full Returns, considerably detracts from the value of these labors. The Committee are unanimously of opinion that the object contemplated in obtaining these Statistical Returns is to present from time to time a comparative statement of the general efficiency and progress of the Church, and that therefore it is unnecessary, indeed, that it would be very questionable policy to attempt obtaining such Returns annually, but that the object would be more satisfactorily secured by presenting such a statement at regular intervals, say of three years. As the Committee do not for a moment doubt that this course will appear proper and desirable, they deem it unnecessary to advance any arguments in support of it. It is evident that in every Congregation there may be certain temporary causes, a falling off in some one point or another, while an average, say, of three years, might exhibit a steady prosperity upon the whole.

The vague and imperfect answers returned to many of the queries renders it necessary that some more satisfactory method of obtaining the desired information be devised, and to this end, the Committee respectfully recommend, that whether the Returns be hereafter made yearly, or at intervals of three years, one or more competent persons in each Presbytery be appointed to act as Enumerators, to wait upon the Session, and managers of each Congregation, and personally to obtain from them, full and accurate Returns. The labors of the Committee would thus be materially lightened, and a full and reliable statement of the progress and prosperity of the Church would result. In the event of this suggestion meeting the approval of Synod, the Committee have no hesitation in stating their belief, that in each Presbytery, there are Laymen to be found of sufficient intelligence, public spirit, and zeal for the Church, who would cheerfully devote the necessary time to this important work.

They also beg to suggest that the Synod appoint a Committee to revise the queries contained in the Schedule, and likewise to re-consider the form and order of the Tabular Sheets.

All which is respectfully submitted,

ROBERT DOBIE,

Convener.

P. S.—The foregoing Report is substantially the same as that presented and read in Synod. The Returns received since that time, and they are nineteen in number, the Committee, rather than give as an Appendix, have at much extra labor to themselves, embodied in Report and Sheets.

REMARKS.

- Two Churches but one Session and Congregation.
- Number of Families connected with the Church not given. Congregation said to consist of whole families, parts of families and individuals.
- Sabbath School not in operation at present. Congregation widely scattered.
- About to build a new Church, of value \$2800.
- Minister also officiates in Bathurst, where is a Church worth \$600.
- Besides Congregational Sabbath School there are several Union Schools attended by many of the children of the Church.
- Part of contributions to the Schemes of the Church, the proceeds of a Bazaar held by the ladies of the congregation.
- Session deem the publication of Congregational Statistics by the Church, as impolitic.
- A deeper interest in Church in many new occasional worshippers at Cumberland. Galleries erected in Church at Buckingham, during year, at cost of \$140.

THE CHURCH OF SCOTLAND for the year ending 1st April, 1860.

REMARKS.

22. Return of Managers very imperfect.
27. A Church now building. When finished, temporalities to be better managed than here
28. Congregation has suffered from emigration and other causes. Minister, by reason of increasing infirmities must soon resign. The prospect for a young man said to be good
29. Charge smaller since Orangeville and Mulmur have obtained Ministers. Minister ad in life, and unable to extend Missionary labours, though much needed, within the of charge.
31. Subscription made for Manse and amount on hand temporarily invested, from which per annum, are paid to Minister in lieu of Manse.

THE CHURCH OF SCOTLAND for the year ending 1st April, 1860.

REMARKS.

Church whose value is given in General Sheet No. 1, is South Church. There is no deed yet for North Church. Congregation is willing to give Model Deed, if the Presbytery of the bounds assist in liquidating the debt.
 Charge vacant since October last. Minister managed Temporalities for himself. Temporality Committee ignorant of state of things.
 Two Churches and one Kirk Session. Have recently commenced to take up ordinary Sabbath collections. Sittings in church sold.
 Beginning Sabbath School. Proposing to build one, if not two Churches this year.
 Two Churches.—St. Andrew's and St. Helen's.

REMARKS.

42. Efforts being made to build a suitable Manse.
43. Services the one Sabbath at Innisfil and St. John's Church, and at Bradford and the Settlement the other.
44. Church built during the year at Dummer. Prospect of congregation at Dummer requires a Minister in conjunction with Otonabee. Glebe at Dummer (100 acres) and that Otonabee 120 acres, not yet much cultivated, but valuable.
45. Congregation suffered much from long vacancy previous to induction of present Minister. There are two Churches, but one body of Managers.
47. Congregation recently formed. Service in Town Hall, but about to begin the erection of a Church.
49. Vacant since demission of charge by Rev. Samuel G. McCaughey, 28th Nov., 1859. The Churches, but report only received from one of them.
52. Managers express belief that these Congregational Statistics will be of incalculable value to the Church. They report the receipt of \$20 more stipend besides \$20 of arrears, which otherwise they believe they would not have got.

THE CHURCH OF SCOTLAND for the year ending 1st April, 1860.

REMARKS.

According to Schedule, a zealous Missionary would collect a congregation in almost any of the school houses.

Church also at Elgin, 9 miles from Huntingdon.

Suffering from the removal of families to other parts of the country, chiefly to the United States.

No return received from Managers.

The Pews have all been sold, subject to regulations.

People desirous to build a Manse, but in need of external aid. Original cost of Church 1600. Supposed to be a mistake in estimating its present value at \$200.

Large Church much wanted. The present one being far too small. Minister ordained 10th November, 1859.

Value of Church not given, it being the property of the Right Honorable Edward Ellice, the Seigneur. Charge vacant since the death of the Rev. Prosper L. Leger, 26th November, 1859.

REMARKS.

74. The Afternoon Sabbath Service, as also the week-day ones, suspended for part of the owing to injury received by Minister.
75. Service alternately in Village Church and Concession one.
76. Service occasionally at Berwick.
77. A second Church, 6½ miles distant from the other, built during the year. Value with \$900.
78. Service in Second or Front Church, second Sabbath of month. Fortnightly on a evening. Average attendance 100.
80. Church built 33 years ago by Lutherans and Presbyterians. Now in disrepair. During the year Presbyterians have subscribed \$2060 towards erecting a new one for themselves.
82. Vacant since demission of charge by Rev. Peter MacVicar, July, 1859. Since which plied by ordained Missionary.
83. Vacant since demission of charge by Rev. D. MacDonald, July, 1859. Gaelic essent requisite.
84. Charge formerly connected with Cote St. George, now long vacant. Gaelic requ Congregation are at present building a Manse to cost \$1250.

REMARKS.

- Charge long vacant. Gaelic required.
- Charge long vacant. Gaelic required. Church property recently reclaimed. Value not stated.
- Vacant since last meeting of Synod, 1859. Indian Lands and Plantaganet meanwhile supplied by Catechist.
- \$241.91 said to be derived from "other sources," inserted under "property" for want of corresponding columns. The attendance has lessened by parties leaving the place.
- \$96 said to be derived from "other sources," inserted under "property" for want of corresponding columns.
- Extreme financial embarrassment of people has disordered the operations of the congregation.
- Return imperfect owing to absence from the country of the Minister. Temporalities of the Church suffering from unexampled depression of business now so long existing. This accounts for the small amount which has been collected for special purposes, as well as for large amount of debt.

REMARKS.

96. Value of Church property not given. Glebe consists of five acres good land.
97. Service at present in a Union Church, used during the week as School house. Congregation has attempted without success to obtain a proper site. Failure of crops has sadly affected congregation. Cast themselves upon sympathy of Synod, to countenance aid.
98. Minister at present in receipt of £25 sterling from Colonial Committee.
99. \$2000 inserted in General Sheet No. 1, under "Manse," is value of Manse and Glebe. Congregation suffering in numbers from high average rate of sittings, have a desire for union with other Presbyterian bodies, believing that it would be the means of reducing price of pews, and increasing the interest and attendance in Presbyterian Churches generally.
101. \$106 said to be derived from "other sources," inserted under "subscription." Minister receives grant of £75 sterling from Colonial Committee.
102. Return from Session partial. No return from Managers.

THE CHURCH OF SCOTLAND for the year ending 1st April, 1860.

REMARKS.

Vacant. Disunited from Dundas in 1858, at present rented to United Presbyterians. Crown grant of land for Glebe to united charge. Manse built by both congregations.

Inference from return.—The minister receives no stipend, that promised being the amount of Pew Rents, but hitherto devoted to the payment of interest on debt of Church Glebe, value of which is not given, consists of 10 acres of bush land. [property.

Managers expect that debt will be liquidated during present year. Session state their belief that religion is in a flourishing condition amongst them.

Minister recently inducted. Value of Manse and Glebe not given.

Minister inducted in September, 1859. Congregation not yet fully organized. There is no Church. The Minister has promised to give a quarter of an acre of land as site for Church. In connection with congregation there is a Sabbath School, but attendance not given; with small library. Since induction of minister there has been three collections made for the Schemes of the Church, but amount of these is not reported.
